

wenaFlex® Premium M Bed Base

The wenaFlex® Premium M bed base provides appropriate support and relief for each section of the body. The electrically adjustable head and foot sections can be independently and continuously raised or lowered.

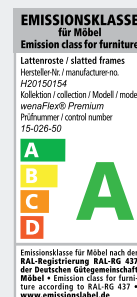

Characteristics:

- Inwardly bevelled, laminated beech wood frame with dowelled and screwed corner joints
- Featuring 60 contact pads with 240 support points
- Highly flexible and durable contact pads made from Tectel, in various levels of hardness, provide an exceptional level of pinpoint support
- Red inserts for additional lumbar support
- Contact pads can be adjusted to suit individual needs
- Maximum flexibility: Electrically adjustable head and foot sections can be independently and continuously raised and lowered
- Emergency lowering is possible in case of a power failure
- 5 comfort zones
- Available in all regular sizes and with varying leg heights
- Fits into most standard bed frames

* The number of contact pads and support points may vary depending on the size and model of the bed base.
